

AI Tools for Everyday Use

Presented by Ilias

Today, I will talk about 5 AI tools that help us in daily life.

These tools are:

Otter.AI

Notion.AI

Replika

Lensa

Copy.AI

1.Copy.AI

Copy.AI was created by Paul Yacoubian in 2020. It helps to write text. It creates emails, blogs, and social media posts. It saves time and makes writing easy.

2.Otter.AI

Otter.AI was founded by Sam Liang in 2016. It writes down what people say. It helps with meeting notes and interviews. It is good for students and workers.

3. Notion.AI

Notion was founded by Ivan Zhao in 2013. Notion.AI was added in 2022. It helps to organize information. It makes notes, to-do lists, and plans. It is useful for work and study.

4.Lensa

Lensa was created by Prisma Labs in 2018.

It is an AI photo editor.
It makes pictures beautiful and artistic.

Many people use it for profile pictures.

5.Replika

Replika was founded by
Eugenia Kuyda in 2017.
It is an AI chatbot.
It talks like a real person.
It helps with emotions and
stress.

Thank you for
your attention!
